**5.** Board reviewed the reports received from the examiners of different examination for the year of 2017 and 2018. Most of the examiners during 2017-18 recommended the inclusion of indirect questions in classroom discussion and improvement in presentation of answers. It was found that mostly the papers contained such question which is appreciated by examiners along with how well the answers were presented by the students. But some examiners raised concern over the question papers of 2016-17 and 2017-18. The examiners mainly commented that many a times the students' answers were diffused or were not to the point. Resolved to recommend that on the whole the report of the examiners is satisfactory but faculty members should look for further improvement. Furthermore suitable MOOCS could be identified from the Swayam portal.

The detailed report is enclosed and marked asAnnexure IX.

**6.** The board evaluated the semester examination papers and derived that the question papers of 2017-18 were a combination of implied and direct questions which gave students a good option. In some subjects the committee pointed out that the question papers were too direct. A

detailed analysis of past papers has been done. It is pointed out that inclusion of Case Studies is comparatively less in papers, and the same must be increased. While the committee shared concern on some papers of 2016-17 to 2017-18 academic years on the whole the committee appreciated the papers and their content.

The Board resolved to recommend that the report is satisfactory but the faculty members should review the model papers and suggest inclusion of case study based question in all courses under MBA. In UG programmes in courses like HRM, Marketing Management, Personal Finance, Income Tax, BhartiyaPrabandhan, Emerging Banking Services etc. case study should be the part of model paper. Furthermore in all courses a question related to relevant current affairs should be included in the model paper, with exception to courses like Financial management, Accounts, Cost Accounts, Goods and Service Tax etc.,

The details are enclosed and marked asAnnexure X.

7. To address this issue a committee was formed and it suggested introduction of online modules to various subjects which can help students in learning the courses at one's own pace. Also while suggesting the online E-Learning material it was considered that it is an addition to the knowledge base created through syllabus and class room practice.

The board resolved to recommend that to begin with online course like Digital Marketing, Supply Chain Management, NISM V-C can be introduced while E-learning material has been suggested for various courses. A list of such courses is as follows with the URLs'.
